

13 A book of length  $l$  and weight  $W$  is positioned on a shelf as shown.

(a) State what is meant by centre of gravity.

(1)

(b) There are contact forces at the two positions where the book touches the shelf.

The book is moved a distance  $x$  to the right as shown.

The magnitude of the contact force  $R$  varies with  $x$ .

Sketch on the axes below the variation of  $R$  with  $x$  between 0 and  $\frac{l}{2}$ . You should mark the maximum value of  $R$  onto the axes.

(3)

(c) Explain why the book will not remain on the shelf if  $x > \frac{l}{2}$ .

(2)

(Total for Question 13 = 6 marks)
