## 2 A box was placed at the top of a ramp and released.

The free-body force diagram for the box as it moved down the ramp at a constant velocity is shown.

Which two forces acting on the box have, according to Newton's third law, corresponding forces acting on the ramp?

- $\triangle$  **A** F and D
- $\square$  **B** F and R
- $\square$  **C** W and D
- $\square$  **D** W and R
